The Hot Shop Package
WEBSITE DESIGN

I'm offering this new shop package in which I will set you up a shop website on either Shopify, Squarespace or WIX which are all great for selling products. We can work out what is the best option for you and your business with an intial consultation and a full quote will be provided.

3 THE 'HOT SHOP' WEBSITE PACKAGE - FROM £695
(HOSTING FOR THIS SITE IS DIFFERENT FOR EACH OPTION - YOU CAN PAY THIS DIRECT SO YOU'RE IN CONTROL)

This package starts of with a meeting over the phone in which I charge an initial £50 consultation fee (this will be taken off the total cost once committed. We will talk through the website options and discuss in detail what is needed for your site and what option is best for you and your business. I then make some suggestions to help you market your business and get you started. I will send over my website check list so you will be in complete control of your everything needed for your website.

Working with your existing branding we can set up your shop. This package includes: 1-5 pages, home page/shop front with social media links, contact page with built in contact form, map, newsletter mailing list, blog page (if required), shop policies. All of these pages can be adapted to suit your needs. I will upload 5-10 products for you to get you started and then will show you how to do this yourself. We will then work with the shop tools to help you get started with selling your products.

£250 will need to be paid up front before design commences. This covers the initial design set up and ensures both parties are commited. Once you have decided on whether you would like to pay for a year's hosting or monthly this will need to be paid before the site goes live. Installments then can be worked out during the project. We can then work together to gather content and the initial home page design will be sent. Once you're happy with the look and feel of the site - I will input all of the information provided by yourself and complete your website design. This can take any time from 2-6 weeks to complete depending on information supplied. You will need to provide your domain name provider and log in details in order for me to make the site live. Then we are good to go!

If you would like me to start work on your website design please get in touch via phone
