## START UP BUSINESS PACKAGES

### *Start up essential pack* THE WHOLE SHEBANG

So you have taken the plunge and started up your own business. Now you need your company to hit your target audience with a bang!

You need a Graphic Designer that can help you with all the tools to promote your new venture. As a small business myself, I know that cash flow is a major problem when you start out - so without any hidden costs it would be silly not to opt for the Whole Shebang package.

#### **4 THE WHOLE SHEBANG PACKAGE - TOTAL PACKAGE - £1,700**

This package includes all the tools you need to start your business. This package includes the following:

##### **[1] Bespoke Logo Design & Stationery Package**

*(business cards, letterhead, compliment slips, DS A6 flyer or leaflet - this can be tailored to suit what you need)*

##### **[2] The WOW Website Package - Website design**

*(includes the first years hosting fee (usual price £245 per year)*

*Please note this doesn't include the shop package - this would be an additional cost.*

##### **[3] Get Social - Online Header Design**

*Headers for Instagram, Facebook, LinkedIn Twitter and Etsy shop.*

If you would like me to start work on the Whole Shebang Package please get in touch via phone or email **hello@josanford.co.uk**
